FOR WOMEN GOING THROUGH MENOPAUSE, HORMONE REPLACEMENT THERAPY IS AVAILABLE IN A PILL OR A SKIN PATCH BUT A NEW STUDY SUPPORTS EVIDENCE THAT THE PATCH MAY

BE THE SAFEST ALTERNATIVE. A CONSULTING FIRM OBTAINED DATA FROM HEALTH INSURANCE CLAIMS OF 54-THOUSAND WOMEN WHO USED HORMONE REPLACEMENT THERAPY FOR ABOUT A YEAR. HALF TOOK ESTROGEN-ONLY PILLS WHILE, THE REST USED SKIN PATCHES. RESEARCHERS FOUND THAT THE WOMEN WHO USED THE PATCHES WERE ONE-THIRD LESS LIKELY TO DEVELOP BLOOD CLOTS IN THE LEGS OR LUNGS THAN THOSE TAKING ESTROGEN ORALLY. RESEARCHERS BELIEVE LOW-DOSE PATCHES, WHILE MORE EXPENSIVE, MAY BE LESS RISKY BECAUSE THE HORMONES DELIVERED THROUGH THE SKIN DO NOT GET INTO THE LIVER AND CAUSE CLOTS THE WAY PILLS DO.

HEAD AND NECK SURGEON DAVID GODIN (GO-DEN) SAYS THE KEY IS TO FIND IT EARLY BEFORE A PRE-CANCEROUS CELL TURNS INTO A CARCINOMA. 95-PERCENT OF ALL CANCERS ARE CARCINOMAS. "THIS LINING WE'RE TALKING ABOUT IS THE THICKNESS OF A PIECE OF PAPER." MARK RUTENBERG USED THE SAME TECHNOLOGY HE CREATED IN THE MILITARY TO DETERMINE NUCLEAR WARHEADS FROM DECOYS TO CREATE ORAL C-D-X. IT'S USED TO DETECT ABNORMAL CELLS AMONG NORMAL CELLS. IT'S A BRUSH TEST THAT SWEEPS ACROSS THE INSIDE OF THE MOUTH. "WE CHECK THE MOUTH FOR WHITE SPOTS AND RED SPOTS." TRADITIONALLY, CANCEROUS CELLS WERE FOUND AFTER LESIONS OR OTHER SYMPTOMS APPEAR. THEN DOCTORS

PERFORMED A BIOPSY, WHICH COULD MISS CANCEROUS CELLS. "THERE'S A TINY LITTLE WHITE SPOT ON THE RIGHT SIDE OF YOUR CHEEK THERE'S NO ANESTHESIA AND TAKES JUST A FEW MINUTES. THE BRUSH BIOPSY IS SENT TO A LAB WHERE 200 OF THE MOST SUSPICIOUS CELLS ARE ANALYZED BY SPECIALLY-TRAINED PATHOLOGISTS. CANCEROUS CELL HAS SIX TO EIGHT GENETIC MUTATIONS. A PRECANCEROUS CELL HAS FOUR. "IF YOU CAN FIND THOSE CELLS AND REMOVE THEM, YOU CAN PREVENT CANCER BEFORE IT STARTS." GASTROENTEROLOGIST ELLIOT HELLER TOOK PART IN A CLINICAL TRIAL USING A SIMILAR BRUSH TEST PLUS THE TRADITIONAL BIOPSY TO DETECT ESOPHAGEAL CANCER. "WE HAD A 40 PERCENT INCREASE OF FINDING BARRETT'S." A NEW STUDY BY RESEARCHERS AT HARVARD FOUND THAT HEALTHY WOMEN WHO DRANK MODERATE AMOUNTS OF ALCOHOL DURING MIDDLE AGE HAD A 20% HIGHER CHANCE OF BEING IN GOOD OVERALL HEALTH AS SENIORS COMPARED TO THOSE WHO DIDN'T DRINK. BUT CONSUMING ALCOHOL ALSO COMES WITH HEALTH RISKS. THE STUDY LOOKED AT ALMOST 14,000 WOMEN IN THEIR MID TO LATE 50'S TO SEE HOW THEIR HEALTH FARED IF THEY DRANK UP TO ONE DRINK A DAY. THAT'S DEFINED AS NO MORE THAN 4 OZ. OF WINE, OR 12 OZ. OF BEER, OR A MIXED DRINK WITH 1 SHOT OF LIQUOR. THE PARTICIPANTS WERE CONSIDERED HEALTHY IF AT AGE 70 THEY WERE FREE FROM CHRONIC DISEASES SUCH AS DIABETES OR HEART DISEASE, WERE MENTALLY SHARP, IN OK PHYSICAL SHAPE, AND HAD NO MENTAL HEALTH ISSUES. PREVIOUS RESEARCH HAS SHOWN THAT CONSUMING MODERATE AMOUNTS OF ALCOHOL IN MIDDLE AGE MAY LOWER THE RISK FOR HEART DISEASE IN BOTH MEN AND WOMEN... BECAUSE IT CAN RAISE LEVELS OF GOOD CHOLESTEROL, OR HDL. BUT EXPERTS SAY WOMEN WHO DRINK TWO OR MORE DRINKS A DAY INCREASE THEIR RISK FOR BREAST CANCER. HEAVY DRINKING HAS ALSO BEEN TIED TO OTHER CANCERS, LIVER DISEASE, INCREASES IN BLOOD PRESSURE AND DAMAGE TO THE HEART. IF YOU DON'T DRINK, RESEARCHERS SAY, THERE IS NO NEED TO START.

BUT PROSECUTORS ARE NOT SWAYED. WE ARE ENFORCING A CONSTITUTIONAL STATUTE. WE'RE NOT CHANGING THE WAY WE'RE DOING BUSINESS. AT ISSUE IS THE IDEA OF INTENT. DID THE DEFENDANT KNOW HE WAS BREAKING THE LAW? FLORIDA'S DRUG POSSESSION LAW IS THE ONLY ONE IN THE COUNTRY THAT SAYS IT DOESN'T MATTER. THE WAY THIS LAW IS WRITTEN, YOU COULD HAVE A UPS DRIVER DELIVERING A PACKAGE, NOT KNOWING WHAT'S IN THE PACKAGE, AND TECHNICALLY IF THERE WERE DRUGS IN THE PACKAGE, TECHNICALLY, UNDER THIS LAW, THE UPS DRIVER WOULD BE GUILTY. AND, BRIAN ITEN SAYS, PEOPLE ACCUSED CAN STILL USE "NOT KNOWING" AS PART OF THEIR DEFENSE. HIS OFFICE HAS APPEALED THE RULING TO THE SECOND DISTRICT COURT OF APPEAL IN LAKELAND. ATHLETES CAN TAKE A POUNDING. AND ALL THAT ABUSE CAN LEAD TO SOME TOUGH INJURIES. IN FACT, OVER THE PAST FEW YEARS, PHYSICIANS HAVE BEEN LEARNING MORE ABOUT THE LONG-TERM EFFECTS OF PLAYING SPORTS, ESPECIALLY WHEN IT COMES TO CONCUSSIONS. "WHAT IT DOES TO THE BRAIN..IT CAN CAUSE CELLS OR TISSUES TO STRAIN OR STRETCH THAT CAN RESULT IN CELL DISFUNCTION." RYAN TIERNEY IS A RESEARCHER WITH TEMPLE UNIVERSITY. HE'S BEEN INVESTIGATING WHETHER SOME ATHLETES ARE MORE PRONE TO DEVELOPING CONCUSSIONS THAN OTHERS. TIERNEY TESTED MORE THAN 200 COLLEGE FOOTBALL AND SOCCER PLAYERS TO SEE IF THEY HAD A SPECIFIC VARIATION OF A CERTAIN GENE, THAT HELPS MAKE PROTEINS THAT REPAIR NEURONS IN THE BRAIN WHEN THEY ARE DAMAGED. OUT OF 200, NINE OF THOSE ATHLETES HAD SUFFERED MULTIPLE CONCUSSIONS. EIGHT OF THOSE HAD THE SAME VARIATION OF THE GENE. "NOW THIS

VARIATION IS NORMAL, THROUGHOUT THE POPULATION, BUT FOR PEOPLE WHO ARE GOING TO PUT THEMSELVES IN AN ENVIRONMENT WHERE THEY ARE GOING TO RECEIVE REPETITIVE HEAD IMPACTS IT BECOMES MORE IMPORTANT." ALTHOUGH MORE RESEARCH IS NEEDED, TIERNEY BELIEVES IF CONCUSSIONS ARE GENETIC, SCIENTISTS COULD ULTIMATELY COME UP WITH A SALIVA TEST THAT COULD ALERT ATHLETES IF THEY ARE PRONE TO CONCUSSIONS. IT WOULD ALSO HELP COACHES AND ATHLETIC TRAINERS MAKE BETTER DECISIONS ON HOW TO TREAT CERTAIN ATHLETES ON THE FIELD.

THAT MEANS PATIENTS CAN GO TO SLEEP AND WAKE UP WHEN THEY WANT AND EAT OR NOT EAT WHATEVER THEY LIKE -- EVEN A GLASS OF WINE OR A SHOT OF WHISKY NOW AND THEN. MOST NURSING HOMES EMPHASIZE THE IMPORTANCE OF RULES AND SCHEDULES -- BUT NOT THIS ONE! "OF COURSE WE PROVIDE THEIR CARE AS NEEDED BY DOCTOR'S ORDERS BUT OTHER THAN THAT THERE ARE NO REQUIREMENTS. YOU CAN SLEEP ALL DAY. YOU CAN HAVE ANYTHING YOU WANT. YOU CAN HAVE CHOCOLATE FOR LUNCH OR NO LUNCH AT ALL." EXPERTS HERE SAY SOME MISTAKES CAREGIVERS MAKE ARE: EXPECTING THE ALZHEIMER'S PATIENT TO GET BETTER, NOT INCORPORATING THE PATIENT'S PREVIOUS PASSIONS INTO THEIR EVERYDAY LIFE, AND BEING TOO SPECIFIC. FOR EXAMPLE -- IF AN ALZHEIMER'S PATIENT ASKS WHERE HER DECEASED HUSBAND IS, IT'S BETTER TO SAY, "HE CAN'T BE HERE RIGHT NOW" INSTEAD OF "HE DIED FOUR YEARS AGO." THAT WILL ANSWER THE QUESTION WITHOUT FORCING THE PATIENT TO RE-LIVE THE PAIN. MOST OF ALL -- THESE NURSES SAY IT'S ABOUT LISTENING, LETTING THE PATIENTS MAKE THEIR OWN DECISIONS, AND SHOWING THEM LOVE.

SPENDING TIME WITH HER GRANDCHILDREN HASN'T BEEN EASY FOR KAREN MARSHALL. "I HAVE HAD SO MANY TIMES THAT I'VE BEEN DOWN BECAUSE OF INFECTION, AND THAT TAKES A WHILE TO CLEAR UP AND EVERYTHING." DOCTORS DIAGNOSED KAREN WITH CREST SYNDROME 10 YEARS AGO -- AN AUTOIMMUNE DISORDER THAT MAKES IT DIFFICULT FOR HER TO HEAL. A PAPER CUT TOOK HER NINE MONTHS TO CLOSE UP. A DEEP LEG WOUND TOOK FIVE YEARS. AFTER A MRSA INFECTION EXPOSED HER TENDONS AROUND HER ANKLES, DOCTORS MADE A RECOMMENDATION... "THEY SAY YOU CAN JUST CONTINUE DOING WHAT YOU'RE DOING FOREVER AND EVER OR CUT IT OFF. I WOULDN'T ACCEPT IT." INSTEAD, SHE FOUND DOCTOR EVANGELOS BADIAVAS (BAH-DEE-AHH-VAS) WITH THE UNIVERSITY OF MIAMI MILLER SCHOOL OF MEDICINE. HE ENROLLED HER IN A STUDY THAT TAKES STEM CELLS FROM A PATIENT'S OWN BODY AND USES THEM TO TREAT THEIR STUBBORN WOUNDS. "WE HAVE HAD PATIENTS WHO HAVE NOT HEALED FOR MORE THAN 10 YEARS AND ACHIEVED FULL HEALING." THE CELLS ARE APPLIED DIRECTLY TO THE SKIN AND INJECTED LOCALLY. "THE VERY BRIGHT GREEN AREAS ARE BONE MARROW CELLS THAT ARE ENTERING INTO THE WOUNDED AREA, AND THEY'RE INCORPORATING INTO THE MUSCLE TISSUE AS YOU CAN SEE RIGHT HERE OVERLYING SOME OF THE MUSCLE." YOU CAN SEE HOW KAREN'S LEGS LOOKED BEFORE...AND SIX MONTHS LATER. THE HOPE IS TO ACHIEVE COMPLETE REGENERATION OF THE TISSUE. "SO THAT I, YOU KNOW, DON'T FEEL LIKE I'M GOING TO BE LIKE THIS FOREVER." THE PROCESS COULD TAKE MORE THAN A YEAR.

WHEN YOU THINK OF SCAFFOLDING, THIS MIGHT COME TO MIND. HERE AT THE UNIVERSITY OF TEXAS SAN ANTONIO.... RESEARCHERS ARE DEVELOPING SOMETHING SIMILAR TO HELP BUILD BONES -- NOT BUILDINGS -- USING A MEDICAL GRADE OF POLYURETHANE FOAM, THE POROUS, SPONGY STUFF YOU CAN FIND IN EVERYTHING FROM TOYS TO CARPET PADDING. JOO (JUE) ONG CO-INVENTED THE BONE SCAFFOLD. HE SAYS IT CAN BE USED INSTEAD OF BONE GRAFTS FOR INJURIES AS SMALL AS FIVE- MILLIMETERS. "BUT, WE CAN MAKE IT AS BIG AS WE WANT." CALCIUM PHOSPHATE -- THE MINERAL FOUND NATURALLY IN BONE -- COATS THE POLYURETHANE FOAM. THEN, IT'S PUT IN A FURNACE. LESS THAN 24 HOURS LATER, THE FOAM BURNS AWAY. THE CALCIUM PHOSPHATE TAKES ITS SHAPE -- HARDENING INTO A SCAFFOLD. AS YOU CAN SEE UNDER THE MICROSCOPE, IT'S VERY POROUS. AND LOOK HOW THE SCAFFOLD WICKS UP LIQUIDS. ONG SAYS THAT'S A SIGN OF HOW IT COULD BE A BETTER OPTION THAN USING DONOR BONE OR OTHER SYNTHETICS IN GRAFTING PROCEDURES. "THERE'S LESS LIKELIHOOD FOR THE BODY TO REJECT THE MATERIAL." RIGHT NOW, THE SCAFFOLD'S AWAITING F-D-A APPROVAL. CORY HALLAM SAYS THROUGH THE CENTER FOR INNOVATION AND TECHNOLOGY ENTREPRENEURSHIP, IT'S THE FIRST PRODUCT FROM U-T-S- A GOING TO MARKET. "IT'S NOT JUST PURE RESEARCH WE DO ANY MORE. WE'RE SOLVING REAL WORLD PROBLEMS THAT HAVE A BIG IMPACT ON THE HUMAN CONDITION." WHILE THE BONE SCAFFOLD HASN'T HELPED GROW HUMAN BONE YET, IT'S GROWN A UNIVERSITY

INVENTION INTO A NEW COMPANY CALLED GEN-OSTEO AND THIS LITTLE THING COULD BE THE NEXT BIG THING IN BONE GRAFTING.
